

Kids' Club Age Groups

Infants and Toddlers

The Kids' Club staff interacts with all children and is sensitive to individual needs. We change diapers, feed bottles, and will spoon feed meals and snacks. We have a variety of age appropriate toys.

Preschool and Elementary School Aged Children

Preschool and elementary school aged children have a choice of a number of activities. We have a train table, books, kitchen with play food, coloring, arts and crafts, building blocks and computers and tablets with educational games. Weather permitting; children can spend time outdoors in a walled-in play area with a fun play structure. We offer special exercise classes for children (normally on days that children have off from school) so that they can exercise while you are working out.

7-13 Year Olds

7-13 year olds have access to a space geared to their needs and likes. It is comfortably furnished with a couch, board games, Legos, and an Xbox Kinect which has sports games.
